Hiraoka... the Pioneer of Tent Fabrics since 1902

Hiraoka's innovative production techniques and processing technology have elevated the level of Tent Fabric standards worldwide. Our application of high quality polymer coatings to various textiles has created specialized membranes for countless applications. Years of expertise, research and experience have enabled us to meet the ongoing demands of our consumers and the global community.

When Hiraoka commenced business in 1902, we scoured and dyed cotton and hemp products. Today, our mission is to design and develop an extensive range of products that reflect our customer's changing demands and the environments in which we live. Currently, we supply a wide range of creative membrane fabrics, including specialized materials for architectural structures, to clients all over the world.

ACCREDITATION

Our ISO 9001 compliant Quality Management System ensures absolute quality, consistency and customer satisfaction. Our business systems are accredited by the United Kingdom Accreditation Service (UKAS).

CERTIFICATION

We offer clients the professional services of an in-house team of registered, practising engineers. This certification of quality ensures that all international standards are met.

SUSTAINABILITY

We proudly support many ecological initiatives. Our Research & Development Division continues to produce newer and greener products.
